

## C.V

**Name:** Jayel Victor Jajo Elia

**Place and day of Birth :** Baghdad - 3.11.1955

**Address :** Baghdad AL-Wihda quarter –M. 904 st.10 build.16 Ap.9

**Martial statues:** Married

**E.mail:** jayelvictor@yahoo.com

**Mobil :** 07901670654

**Scientific Degree:** Assistance Prof.

**Working place :** Animal Prod. - Agriculture College – Baghda Uni.

**Specialty :** Sheep & Goat Production

**Degree :** Msc.

**Name of Msc. Thesis :** Some genetic factors affecting on birth and weaning weights in local and cross bred goats

**Language :** Arabic and English – reading and writing

**Positions:** from 1979 and still

**Subject teaching :**

1. Animal production principle to the first class students of Ani. Prod. Dept. , Economic Agri. and engineering Agri. Dept. students.
2. Dairy cattle prod. For fourth Anim. Prod. students.
3. Sheep and goat production for fourth class – Anim. Prod. students

**Teaching methods:** by using internet , using my editing books and by using Data show.

### **Books editing :**

1. Editing Dairy cattle prod. book – 2010 for fourth class students
2. Editing Live stock prod. Book – 2012 for first class students

### **Unsystematic books : under editing**

1. Heifers rearing from birth until ending its life production
2. Camel rearing
3. Horses rearing

### **Published scientific researches :**

1. Heritability estimation for some growth traits in local goats
2. Some factors affecting on body weights at 6 , 9 and 12 months of ages on local and cross bred goats.
3. Some factors affecting on body weights at birth and weaning on local and cross bred goats.
4. Some factors affecting on number and weights of cotyledons on goats.
5. Affecting of cotyledons weights and numbers on goats kids.
6. Some factors affecting on performance and growth in local goats and its cross bred with Sannen and Shami goats.
7. The prediction on carcass traits and body measurements under birth weights on local goats.
8. Genetic perseverance on milk production in local and Turkish Awassi.
9. Effect of of lamb sex and genetic groups in some growth and carcass traits in Awassi and cross Awassi sheep.

10. Effect of Sodium Tripolyphosphate, Potassium Lactate and Their Combination on Physico–Chemical Characteristics, Shelf Life Stability and Sensory Evaluation of Ground Goat Meat during Cold Storage.

11. Regression of growth and milk production on some blood parameters in Turkish Awassi sheep.

12. Regression curve of milk production and service per conception on some blood characteristics in Friesian cows.

13. Dam age and weight , lamb sex, lamb breed and kidding type on the mortality of local , Turkish Awassi cross bred.

14. Some factors affecting in milk production and its components and some growth traits of local Awassi sheep.

15. Study of growth traits for Local Awassi sheep from genotype of  $\beta$ -lacto globulin gene.

**Unpublished scientific researches:** Three under preparing

**Scientific Activates :**

1. Supervision on researches evaluation
2. Proposal discussion
3. Teaching in field classes and visiting to the animal barns for the students and others delegations and visitors from different ministers

**Unscientific Scientific Activates :**

1. Educational supervision committee for two years
2. Sociality activity committee

3. Examinational committee

4. Meeting committee to first class students

**Studies :**

The relation of body condition scoring with milk production and some physiological and sexuality on Friesian cattle. ( Presented to limited united animal recourses company- 2010).

**Thanks letters :**

From the Agri. college Dean for :

1. Editing two systematic books
2. Teaching students by using data show
3. Practical teaching students on animal farm.

**Conferences and seminars :**

Many in Ministry of Agri. and inside and outside animal production dept.
